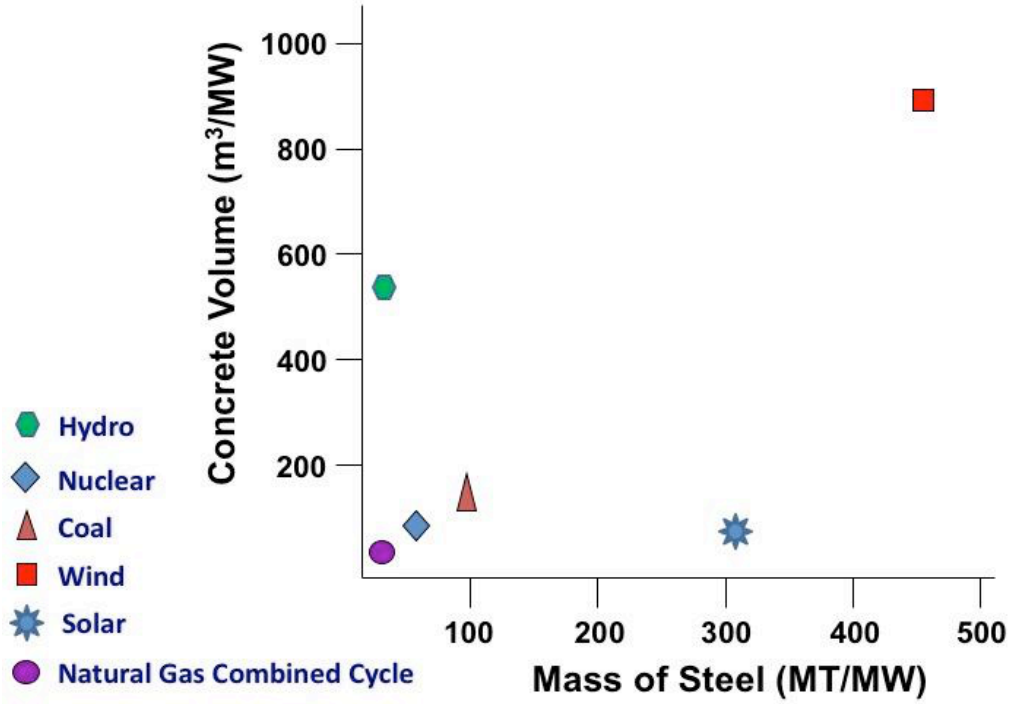
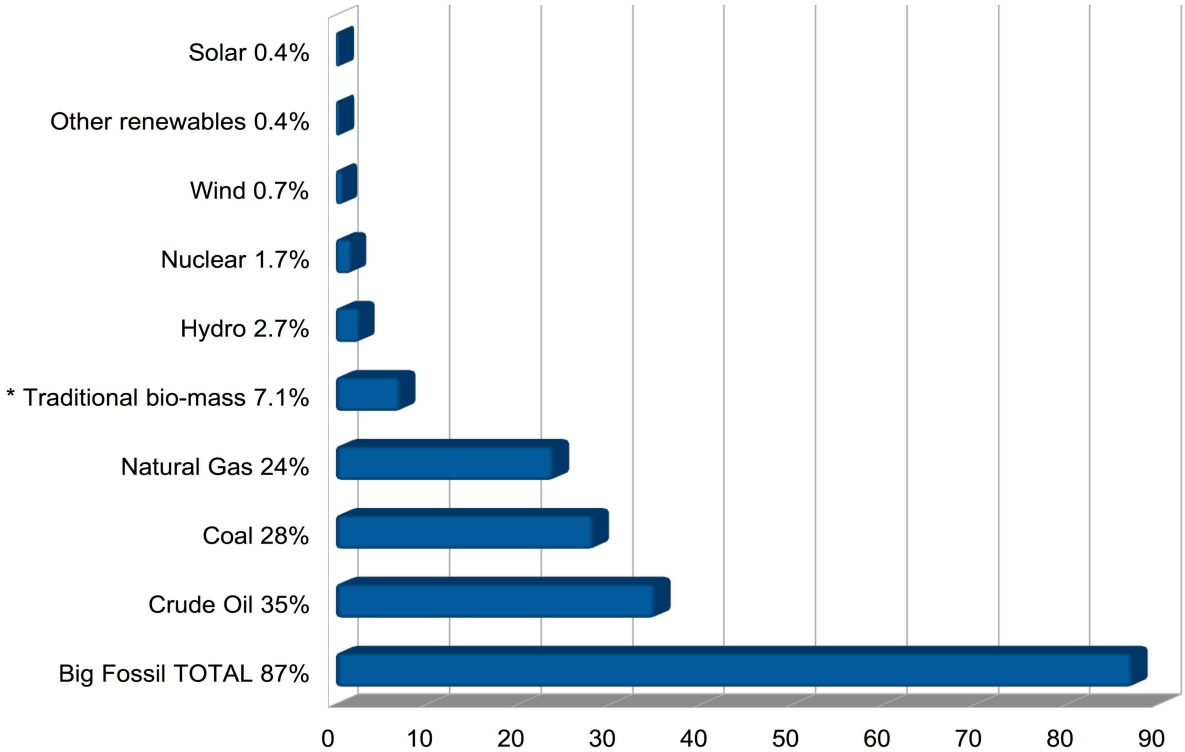
Q: Why does GREEN NEW DEAL Need Nuclear Power?
A: Steel & Concrete all made with Fossil Fuel Energy...



Materials needed to install various energy systems



% Global Primary ENERGY Consumption 2018

www.ourworldindata.org

* Traditional Bio-mass = Burning Wood, Dung (& coal) = 3 Billion people Breath Smoke to Cook & Keep Warm

NOTE: Global Electricity = only 15% of Global Energy Consumption
+ 1 Billion people off-grid with No Electricity
